252 46, Helsingborg

---

I am Victor, a 26-year old Swedish student who is goal oriented, ambitious and eager to learn new things! I am in my third year as an undergraduate student in Computer Science & Computer Engineering. Here I can benefit from my previous work experience, which has required discipline and proper communication.

## Work Experience

---

### Summer Internship, Arm

Summer 2021

At arm I developed automation tools with Python and Bash. I also used Git, Gerrit, Jira and Confluence as part of my daily work routine.

### Teaching Assistant in Java Programming & Digital Systems, LTH

August 2020 -

As a TA I get to improve my own understanding of the topics as well as help other students.

### Summer Internship, BitCraze

Summer 2019 & 2020

At Bitcraze I wrote documentation and improved their GUI with Python and PyQt. I also experimented and flew their drone Crazyflie, and was introduced to agile workflow.

### Machine Operator, Skanemejerierna

October 2018 – May 2019

As a machine operator I worked shift work which was a new challenge. I learned how a part of the food industry works and gained practical skills in machine handling.

### Laboratory Assistant, Stadex AB

June 2018 – October 2018

As a laboratory assistant I did measurements and analyses which required great accuracy.

### Personal Trainer, Friskis & Svettis

January 2018 – August 2018

As a personal trainer I learned to communicate and deal with a variety of people. I realized the importance of adopting my behavior to adjust to different situations and succeeded in helping several people to get in better shape, both physically and mentally.

### Chef & salesperson, Limhamns Fiskrokeri

June 2011 – October 2017

As a chef and salesperson, I learned to work under constant pressure while communicating with multiple people and making quick decisions. I often contributed with a good mood.

## Education

---

Minor in Electronics for Robotics, TU Delft (Erasmus Programme)

August 2021 - January 2022

Bachelor of Computer Science and Engineering, LTH

August 2019 -

Social Science High School diploma, S:t Petri

August 2012 – June 2015

## Skills and Achievements
